Introduction

R.O.B.E.R is a puzzle solving game where the player takes control of an experimental bomb disposal robot called Rapid Operational Bomb Emergency Robot or R.O.B.E.R. The goal of the game is to manoeuvre boxes into their correct positions in order to gain access to an explosive device and disarm it before time runs out.

Launch

To run the game simply launch the application called “R.O.B.E.R” in the executable file.
